

Navigation Shapes in black canvas

• Product Description

Day shapes are signals visually indicating the status of a vessel to other vessels on navigable waters during daylight hours whether making-way, anchored, or aground. These signals consist of a set of simple geometric shapes: Ball, Double Cone, Cone and Cylinder. The diameter is 62 cm (24") according to SOLAS regulations, made from black canvas and an iron frame structure.

- **SC. 500** Ball Ø 62 cm
- **SC. 501** Double Cone Ø 62 cm H 62 cm
- **SC. 502** Cone Ø 62 cm H 62 cm
- **SC. 505** Cylinder Ø 62 cm H 120 cm

This technical data sheet provides an overview of the different navigation shapes available, including their item codes, shapes, and sizes, ensuring clear communication of a vessel's status to other vessels during daylight hours.

Fully compliant with the specifications detailed in Annex I of the International Regulations for Preventing Collisions at Sea (COLREGs). This ensures that all our day shapes meet the minimum dimensions and visibility requirements for maritime safety.
