

Floating Rope

PART NUMBER SC.005

The Floating Rope is an essential piece of safety equipment designed for use in marine environments.

This high-visibility floating line is specifically engineered to be fixed to a lifebuoy, ensuring it remains easily accessible and effective during emergency situations.

Features:

- High Visibility
- The rope floats on water.
- Constructed with durable, weather-resistant materials.
- The rope can be easily fixed to a lifebuoy.

Specifications:

- Length: 30 meters
- Diameter: 8 millimeters
- Material: Levilene designed to float on water, with snap hook
- Color: Orange for easy recognition
