

# Stainless Steel Petrol Jerry Can, 20 Lt

PART NUMBER SC.213

## Compliance:

- Manufactured in accordance with EC regulations.
- UN certified for the transport of hydrocarbons.

## Features and Specifications

- Material: Stainless steel
- Capacity: 20 liters
- Approvals: ADR/UN approved for the transport and storage of dangerous goods.
- Usage: Suitable for flammable and aggressive substances.
- Dimensions: 350 W x 170 D x 470 H mm
- Thickness: 0.8 mm

## Design:

- The top screws off to reveal the internally stored spout, which can be attached to the can for easy filling.
- The outlet tube is stored within the canister, preventing contamination.

## Safety and Durability

- Stainless steel construction ensures durability and prevents fuel spillage or leakage.
- Polished finish for enhanced appearance and easy cleaning.
